HiSET® Prep Courses
Formerly the GED® - The HiSET® test has replaced the GED® Exam in Massachusetts

RCC now offers preparation courses for the High School Equivalency Test (HiSET®). Students will begin the prep course by taking diagnostic practice tests to help develop individual study plans.

Students should use these preparation courses to supplement their own ongoing studying and exam preparations.

Roxbury Community College is a testing site for the HiSET®. Please note that there is a separate fee for taking the actual HiSET® exam.
