An internship position at LSN revolves around creating and updating life science investor profiles from online research and telephone survey results. These investors include Angel Groups, Corporate VC, Endowments & Foundations, Family Offices, Government organizations, Hedge Fund, Institutional Alternatives, Large Pharma, Private Equity, and Venture Capital.

The relationships that the intern will cultivate with the global life science community will be invaluable and will be extremely beneficial in advancing their career, particularly if the candidate aspires to secure a position in either the life sciences or institutional investor space. Interns will also be exposed to a growing entrepreneurial company environment and will be considered for full time employment following the end of the internship.

Requirements:

- Recent graduates or in their senior year of college
- Basic understanding of private investment space
- Great writing and editorial skills
- Interest in working at a startup company
- Interest learning about the life science industry
- Interest in becoming a full time employee

Candidates are asked to send their resume and cover letter to Michael Quigley, Research Manager at: m.quigley@lifesciencenation.com.
