Math for Pharmacy Technicians

CSA 520 Z1: Friday: 6:00-9:00; 12 weeks; Cost: $200

This course provides students with the pharmacy calculation skills necessary to adequately perform their duty as pharmacy technicians. The course covers, among other things, metric measurements application, measurement conversion, prescription and medication dosage, drug weigh, the apothecary unit, and business math for pharmacy technicians. This course is a pre/corequisite for the Pharmacy Tech training.
