Radiologic Technology Program is a full-time, two-year Associate in Science Degree program providing professional training for radiologic technologists. Radiologic technologists work in a professional environment at a hospital, clinic, or private office. Their skills include patient care, positioning, operating X-ray equipment, image quality assessment, technical factors, and interacting with the general public, ancillary workers, and physicians.

Upon completion of the program, graduates will have obtained the knowledge and skills expected of entry-level radiographers in accordance with the American Registry of Radiologic Technologists (ARRT) and will be eligible to take the national radiology exam, a prerequisite to seeking employment as a registered entry-level radiographer. Graduates who successfully pass the national exam become licensed in the state of Massachusetts and work in hospitals, clinics, medical offices, and other health care settings.

Radiologic Technology Program

- Accredited by (JRCERT) Joint Review Committee on Education in Radiologic Technology
- Clinical Sites:
  - Beth Israel Needham
  - Boston Medical Center
  - Mass General Hospital
  - Mobile-X
  - New England Baptist
  - Whitter Health Center
  - Boston University Ryan Center
  - East Boston Neighborhood Health Center

Application Submission Dates:

- Applications Period: October 15, 2020 - March 15, 2021
- Application Requirements:
  - Completed Application and Essay
  - TEAS Exam Results
  - Attendance to Radiologic Technology Information Session (Dates Online)
  - Completion of all prerequisites below
    - Math above level 100, English 101, Anatomy and Physiology I
