COMMUNITY SUPPORT
DURING COVID PG 2

EMPLOYMENT
AT RCC PG 10

VIRTUAL FITNESS
CLASSES PG 11

Welcome

»As we draw to the close of one of the most challenging years in recent memory, I find solace and hope in the many amazing things that are still happening in our community, especially at Roxbury Community College.

Responding to the COVID-19 pandemic as an institution was a challenge, but the RCC community banded together and worked extraordinarily hard to ensure that our students were successful. Since March, RCC has distributed over 330 laptops and 60 WiFi hotspots, equipping students with the technology required for academic success. Additionally, we awarded \$25,000 in need-based aid and provided 148 students with Stop & Shop gift cards, to help address food insecurity.

On the academic front, I am thrilled to announce that in October, BORN granted initial approval to RCC's new Nursing Program! We will welcome our first class in the

fall 2021 semester. Additionally, our Professional Education Department teamed up with Google and CompTIA to launch a new Google IT Support Professional Certificate.

In early December, I was pleased to have the opportunity to work with the Roxbury Community College Foundation (RCCF) to continue our Legends of Roxbury series. This year, we honored three pioneers in the field of broadcast media — Rev. Liz Walker, Carmen Fields, and Sarah-Ann Shaw — while raising funds to support RCC students.

In this issue of the Gazette, you will learn more about RCC's impressive suite of healthcare programs, our continued community support efforts, and much more.

In these difficult times, I encourage you to continue to prioritize the health and well-being of yourselves and your families. Take good care, and I look forward to seeing you back on campus when the time comes.

DR. VALERIE ROBERSON

SUMMER HIGHLIGHTS

1 State Representative Liz Malia and RCC President Valerie Roberson speak with reporters about the importance of supporting census completion efforts.

2 State Representative Chynah Tyler and Dr. Valerie Roberson pose for a photo with event staff.

3 Mayor Marty Walsh takes a selfie with Dr. Valerie Roberson and others, to commemorate the event.

4 State Representative Chynah Tyler, Mayor Marty Walsh, State Representative Liz Malia, and RCC President Valerie Roberson pose for a photo with event staff and volunteers.

5 New England Patriots Hall of Famer Willie McGinest talking with reporters.

6 A young community member greets Patriots owner Robert Kraft.

7 From left to right: Patriots Hall of Famer Tedy Bruschi, Assistant Dean of Enrollment Kandley Val, Patriots Hall of Famer Willie McGinest.

8 RCC staff pose with Boston Police Commissioner William Gross, who came out to support the voter registration drive.

9 RCC staff pose with Patriots alumni.

Continued Community Caring During COVID-19

RCC'S LONGSTANDING SUPPORT OF THE GREATER COMMUNITY LIVES ON

» This summer, the RCC community came together to support initiatives aimed at amplifying our voices. Supporting census efforts and voter registration drives are crucial components of RCC's mission to ensure that all community members are represented in federal, state, and local efforts. All events were executed in alignment with state and city COVID-19 efforts to ensure the safety of our community.

CENSUS SIGN-UP

On Sept. 11, 2020, RCC partnered with the City of Boston and the U.S. Census Bureau to offer community residents the chance to fill out the census in an outdoor, controlled environment, with social distancing guidelines in place. The event included free giveaways and was attended by various elected officials, including Mayor Marty Walsh and State Reps. Chynah Tyler and Liz Malia.

BE THE CHANGE

On August 8, 2020, RCC partnered with the New England Patriots and the Kraft Family Foundation to host a voter registration drive. The event, entitled “Be The Change,” was spearheaded by Patriots Hall of Famer Willie McGinest. Also in attendance were Hall of Famers Tedy Bruschi and Ty Law.

“Be The Change” was created to bring together the New England community, with the intention of creating and promoting education, resources, and opportunity. Through our voter registration drive, we hope to empower the community to drive positive changes for our future.

SUCCESSLINK/BOSTON SUMMER YOUTH EMPLOYMENT PROGRAM

Every summer, the City of Boston SuccessLink program employs 100s of 15- to 18-year-old workers and 19- to 24-year-old supervisors at community-based organizations. The program increases youth and young adults’ professional development across the city and helps to expand networking opportunities.

After the onset of COVID-19, the city had to review the available employment opportunities, since many businesses and organizations were shut down or operating at a limited capacity. As a result, the Mayor’s Office of Economic Development and the Office of Workforce Development partnered with RCC to offer an innovative way to provide paid learning opportunities.

This partnership led to over 25 students enrolling in summer courses at RCC. Students had the option to take either Intro to Business (BUS 130) or The College Experience (ACS 102). The students received full course credits and can continue their education and enroll full-time or part-time at RCC.

In addition to taking summer courses, city youth are regularly employed with our facilities division. We were able to offer these positions over the summer and increase them overall. This was provided in a safe work environment for city youth, while also providing crucial support for the phased reopening efforts of the College. We are proud to partner with the City of Boston to offer educational and employment opportunities to young men and women!

Interested in partnering with RCC for your next civic engagement event? Contact Director Nathan Simms at nsimms@rcc.mass.edu.

HEALTHCARE PROGRAMS AT RCC

Students enrolled in RCC's Radiologic Technology Program in the recently renovated radiologic technology lab.

Preparing Future Healthcare Leaders for Success

» At RCC, we take pride in preparing students with the knowledge and skills needed for immediate career success or transfer to four-year schools. RCC offers a suite of health science programs including nursing, radiologic technology, phlebotomy, clinical medical assistant, and medical billing and coding. All programs are designed to meet current workforce needs, and the College regularly meets with industry leaders to update program curricula and ensure students have access to the best clinical sites in Boston. RCC has a longstanding tradition of preparing students for immediate employment in the field of healthcare.

RCC'S NEW NURSING PROGRAM

»At a time when COVID-19 has revealed a greater need for skilled healthcare workers, the state Board of Registration in Nursing (BORN) has granted initial approval to Roxbury Community College (RCC)'s new Nursing Program.

"Nurses are the lifeblood of any community, especially during the pandemic," says RCC President Dr. Valerie Roberson. "RCC is honored to have the opportunity to provide a quality nursing program at an affordable price for our students." RCC students will be able to start their two-year journey to an Associate in Science in Nursing degree in the fall of 2021.

The RCC Nursing Program is led by Director of Nursing Stephanie Victoria, who started in August. "My goal is to deliver a high-quality nursing program that serves as a social justice vehicle benefiting the students, their families, and ultimately the community," says Victoria. "RCC's Nursing Program will embody academic social responsibility by increasing the amount of competent, caring, and inquisitive nurses available to the community. At the end of the program, our students will possess the self-efficacy needed to engage, address, and ultimately work towards eliminating healthcare disparities."

Applications to the Nursing Program should be submitted by April 15, 2021.

In 2017, RCC completed \$13 million in renovations to create a state-of-the-art health sciences building. Nursing students complete coursework and simulations in this building, which includes a nursing simulation lab and mock hospital.

Meet the Staff

STEPHANIE VICTORIA
DIRECTOR OF NURSING

» Our Director of Nursing, Stephanie Victoria, prides herself on being a Massachusetts-educated nurse. She has experience building a solid career in a state that dominates the healthcare industry, and she is committed to supporting our students towards licensure and beyond.

Victoria joined RCC, in part, because of the College's commitment to providing a top-quality education at an affordable cost. Victoria's own life is testament to the rewards of cost-effective education. She studied at Simmons University for her BSN and opted to continue her education at UMass Dartmouth, where she earned a master's degree in Community Health with a specialization in Education. As a mother, Victoria recognizes the impact

student debt can have on an entire family's resources. Her children, who were born after her career started, benefit from her choice to pursue an affordable education.

Victoria wants RCC nursing students to have a broader understanding of healthcare careers. Over the course of her own career, she has become more familiar with important healthcare positions outside of nursing, such as phlebotomists and radiographers. "These are also competitive professions in the medical field," says Victoria. "Community colleges offer students affordable options that lead them directly to workforce opportunities."

GET IN TOUCH:

For more information on the Nursing Program, including the new curriculum and admissions criteria, please visit rcc.mass.edu/nursing or contact Director Stephanie Victoria at svictoria@rcc.mass.edu.

“If you have a passion for helping people, enjoy technology, and like working with your hands, there's no better career.”

— Gary L'Abbe, Jr.

RADIOLOGIC TECHNOLOGY

» RCC's Radiologic Technology Program is a full-time, two-year Associate in Science degree program providing professional training for radiologic technologists. Radiologic technologists work in a professional environment at a hospital, clinic, or private office. Upon completion of the program, graduates will have obtained the knowledge and skills expected of entry-level radiographers per the American Registry of Radiologic Technologists (ARRT) and will be eligible to take the national radiology exam, a prerequisite to seeking employment as a registered entry-level radiographer.

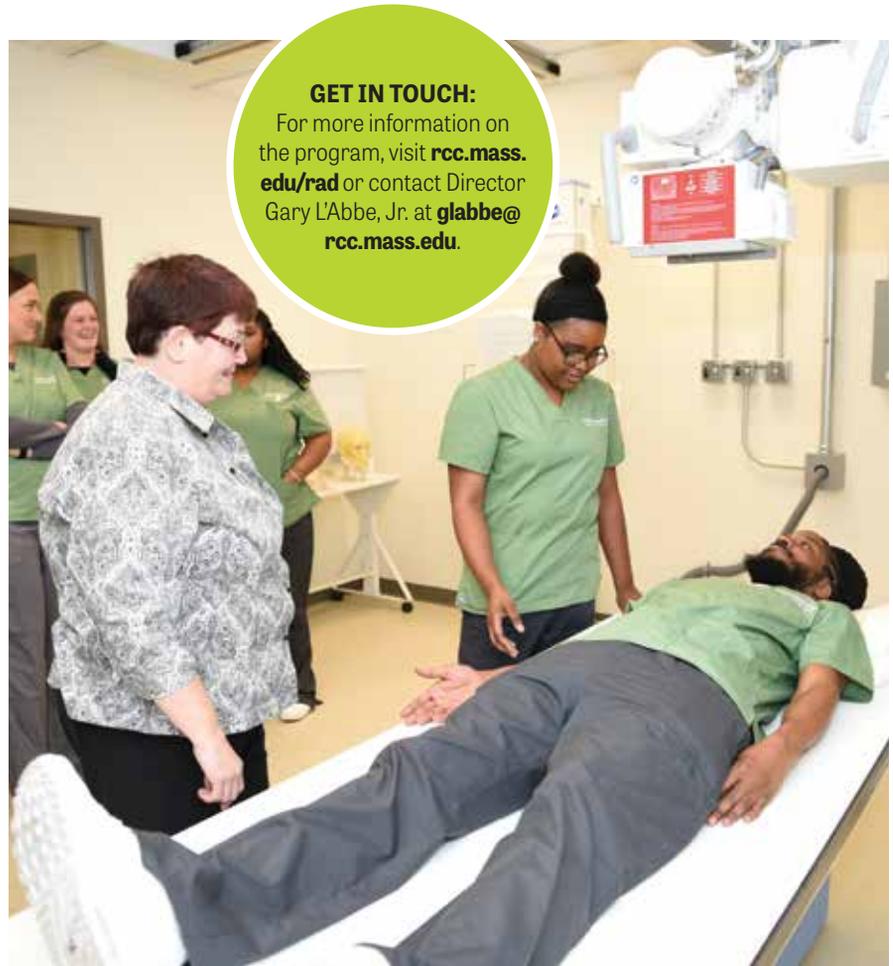

Graduates who successfully pass the national exam become licensed in the state of Massachusetts and work in hospitals, clinics, medical offices, and other healthcare settings. Graduates will also be eligible for advanced certification in specialty areas, such as Mammography, Computed Tomography (CT), or Magnetic Resonance Imaging (MRI). In addition to practice, graduates may choose to continue their education at the university level for advanced allied health education, administration, or research.

Meet the Staff

GARY L'ABBE, JR., MHA,
CNMT, RT(R)(N)(CT)
**RADIOLOGIC TECHNOLOGY
DIRECTOR**

» Gary L'Abbe, Jr. knows firsthand that a rewarding career can start with earning an associate degree in Radiologic Technology. We were thrilled when he joined RCC in June as our new Radiologic Technology Program Director. With years of industry experience, L'Abbe recognizes that skilled radiographers are in high demand and supports our students in the pursuit of their career goals.

Radiologic technologists work closely with physicians and radiologists to provide an important service in the healthcare industry. “It's one of the associate degree programs that offers a sustainable career with real growth potential,” L'Abbe says. “If you have a passion for helping people, enjoy technology, and like working with your hands, there's no better career.”

GET IN TOUCH:

For more information on the program, visit rcc.mass.edu/rad or contact Director Gary L'Abbe, Jr. at glabbe@rcc.mass.edu.

SHORT-TERM CERTIFICATE PROGRAMS

» Now more than ever, enrolling at RCC provides a flexible and affordable path towards a new career. Each of our short-term, professional education programs geared toward healthcare professions is designed to meet Boston's growing workforce needs. RCC provides one-on-one support throughout the enrollment process, and from enrollment to certificate completion, you will continue to receive individual guidance from our team of experienced administrators. With small class sizes, there is a balance of cooperative learning as well as individual time with the instructor in every course.

CLINICAL MEDICAL ASSISTANT

This course introduces students to the clinical responsibilities within hospital settings. Topics covered include preparing patients for examination and treatment, venipuncture, and EKG. Students will learn routine laboratory procedures, as well as stress and diagnostic testing. The program also covers ethics and the legal aspects of healthcare.

MEDICAL BILLING AND CODING

This course introduces students to ICD-10 guidelines, basic claims processes for medical insurance and third-party reimbursements, and specialty fields such as surgery, radiology, and laboratory. Students will become familiar with user manuals (CPT, ICD-10, and HCPCS) and learn how to match services and codes. They will also learn to solve insurance billing problems, manually file claims, complete common insurance forms, trace delinquent claims, appeal denied claims, and streamline billing procedures.

PHARMACY TECHNICIAN

This course introduces students to the theoretical knowledge and hands-on training necessary to work as pharmacy technicians in retail, hospital, and fulfillment pharmacy settings. Topics include the history of medicine, pharmacy terminology, prescription processing, compounding, inventory management, and state and federal pharmacy regulation. RCC offers this course in partnership with CVS Pharmacy.

PHLEBOTOMY

This course introduces students to medical terminology, human anatomy and physiology, OSHA regulations, bloodborne pathogens, universal precautions, ethics, and applicable law. Students will familiarize themselves with test requirements, tube identification, procedures, and protocols for lab safety.

GET IN TOUCH:

For more information on short-term certificate programs at RCC, visit rcc.mass.edu/cwd or contact Executive Director Salvador Pina at spina@rcc.mass.edu or Assistant Director Evelyn Everton at EEverton@rcc.mass.edu.

The Virtual Learning Experience at RCC

» All RCC students are now engaging in virtual classroom sessions, due to the ongoing pandemic. Many RCC students are preparing for their third semester of learning primarily through virtual and online classes. Although many of them are balancing significant personal and professional responsibilities with their education, they continue to thrive. Here, three students share their experience with online learning.

“Working virtually, rather than in person, has certainly been a learning experience for me. Although virtual learning has given me the ability to work from the comfort of my home, I’ve realized that I prefer the everyday in-person interactions with others to a Zoom call. This tight-knit RCC family has been able to overcome so much in such a short time. Knowing that we are all in this together has given me both hope and motivation during these difficult times.”

— Jamar Noble
Current RCC Student

“In March, when COVID hit, Professor Akhter quickly and successfully shifted our organic chemistry coursework to an online platform. We covered the remaining coursework, watched videos to simulate the in-person labs, and finished out the semester strong. Additionally, before the global pandemic, I completed three hybrid courses and thrived. RCC has the capacity and support systems in place to help students complete their academic goals. I will be forever grateful for the opportunity and the experience I gained.”

— Natalie Kaufman
AA in Health Careers, '20
Accepted to UMass Boston's Accelerated BSN Program (Spring 2021)

“Juggling my online classes while maintaining my children's online classes and upholding family responsibilities can be challenging. However, my professors have been very accommodating, understanding, and committed to helping me succeed and graduate. I am truly thankful for all of the encouragement and ongoing support I have received at RCC. Overall, I enjoy online classes and they allow me the flexibility I need to succeed.”

— Latoya Malone
Current RCC Student

We are committed to creating and implementing best practices for teaching and learning remotely. Our faculty members have adapted their syllabi and coursework to reflect new requirements for students, and our full suite of student support services are offered remotely. For more information on remote student support, visit rcc.mass.edu/remotelarning.

RCC's Archives Now Available Online!

» The role of a college's archives is to tell the stories of students, faculty, and staff throughout time, allowing those who come later to find grounding and inspiration in past triumphs and tribulations. The Roxbury Community College Archives and Special Collections fulfills this responsibility by collecting, preserving, and making available historical materials documenting the history of RCC and Greater Roxbury. In September, the RCC Archives launched a new website to make the stories of our past more accessible.

In the 21st century, archives are increasingly moving to the online environment, where they can be explored at any time and from anywhere. As the institutional memory of the college, RCC's digital archive is a perpetual work in progress, which captures the evolution of our programs as well as our sense of identity and understanding of education. Accessible through the RCC library webpage, the archives site displays digital items including photographs, student handbooks, course catalogs, student newsletters, event programs, and much more.

Today, most of the materials found on the new site are photographs capturing the legacy of the past four decades at RCC, but we are constantly adding more digital objects. In the future, we hope to also exhibit materials from our special collections, which include the records of the Boston Black United Front and the records of Mel King's 1983 mayoral campaign.

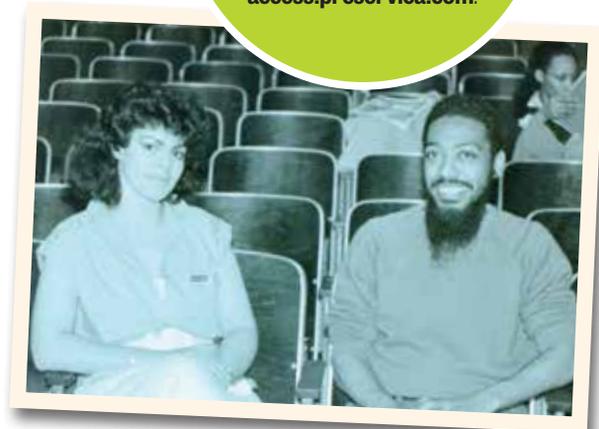

The archives' current focus is on preserving the stories of how COVID-19 has affected the RCC community. At RCC, we serve a community whose voices have historically been ignored, and we are honored to provide a platform that will chronicle their experiences during the pandemic. To view the archives' ongoing COVID-19 History Project and explore all of our currently available digital materials, visit rcc.access.preservica.com.

Additionally, the RCC Archives accepts donations of records in various formats — text, audiovisual, and digital — that document the history, mission, programs, and policies of RCC.

GET INVOLVED:

To contribute to the archives or access materials that are not yet available online, please email the archivist, Julia Greider, at jgreider@rcc.mass.edu. View the archives at rcc.access.preservica.com.

Meet the Staff

JULIA GREIDER, MLIS
LIBRARIAN ARCHIVIST

» Originally hailing from Virginia, Julia Greider graduated from Smith College with a double major in English and the Study of Women and Gender. She also holds a Master of Library and Information Science with an archives management concentration from Simmons University. Before coming to RCC in 2019, she worked in a variety of public libraries and women's and LGBTQ archives, most recently Radcliffe's Schlesinger Library on the History of Women in America.

Greider believes strongly in the ability of history to empower marginalized communities. "Understanding the struggles and victories of those who have come before you can create a revitalizing sense of pride and solidarity in claiming a certain group identity," she says. At RCC, she aims to make the college archives and special collections more accessible and help incorporate RCC's history of overcoming adversity into the daily life of the school. Along with being RCC's archivist, Greider is also the liaison librarian for the English, Humanities, and Criminal Justice Departments. She teaches classes on how to conduct research and works with students one-on-one to help them gain the information skills they need to succeed in college.

WE ARE HIRING!

Employment at RCC

» If you're talented and energetic, dedicated and creative, and have the drive to make a difference, then consider a career at Roxbury Community College. RCC, a state-supported two-year academic institution located in Boston, Massachusetts, is continually searching for qualified and goal-oriented individuals to join our dynamic team. Roxbury Community College is situated on a beautiful urban campus, with easy access to a range of educational and cultural activities. RCC offers excellent healthcare and tuition benefits for you and your family. We are a diverse, multi-cultural learning community and are at the cutting edge in nursing and instructional technology. RCC also offers broad professional development opportunities and flexible work options.

(above) President Valerie Roberson talks with faculty and staff at the January 2020 RCC All College Meeting. Since March 2020, RCC's All College Meetings have been held online.

JOIN OUR TEAM!

“It doesn't get better than working for an institution in Roxbury that is committed to uplifting the community through excellence and innovation in education.”

— Rob Williams
Assistant Director of HR
Roxbury Community College

The Reggie Lewis Center Is Offering Virtual Classes This Spring!

STAY ACTIVE AND HEALTHY FROM HOME

» To limit the spread of COVID-19, current state guidelines indicate that large venues, like the Reggie Lewis Center, must remain closed. Even though the building is physically closed, we want community members to have access to our exceptional classes and instructors from home. Staying active and fit during these challenging times is crucial for both physical and mental health. We are pleased to announce that beginning in January 2021, the Reggie Lewis Center will be offering virtual fitness classes to help you stay in shape!

PROGRAMS: VIRTUAL FITNESS CLASSES

CLASS SCHEDULE

Here are a few of the classes we plan to offer in January. Please note that this is a small sample from the full class schedule, which is available on our website.

■ Sensational Seniors

Monday, Wednesday, Friday

9:30 am – 11:00 am

Health, strength, and laughter are the main attributes of this program. The program increases the mind, body, and soul of the seniors who take part. With 15 of the original members still participating and over the age of 90, this is proof the program enhances life. The foundation of the program is an extensive cardiovascular workout that gets seniors on their feet so the blood flows, muscles move, and lungs get stronger.

■ Soul Line Dance

Monday, Wednesday, Friday

6:30 pm – 7:30 pm

Choreographed dance moves that help improve cardio, endurance, and also teaches you all the latest dance moves!

■ Pilates

Monday, Wednesday

3:00 pm – 4:00 pm

An exercise class that will develop a strong core and build strength and stamina through coordinated movements and breathing.

■ Basketball X&Os

Monday, Wednesday

5:30 pm – 6:45 pm

Participants will learn to develop a coaching philosophy and X & O training to improve coaching practices and create a coaching system that works at any level of basketball.

All classes cost \$90.00 per class, with the exception of classes for seniors, which cost \$30.00 per class.

READY TO SIGN-UP FOR A CLASS?

Visit rcc.mass.edu/reggie-lewis for a full class listing and registration instructions, or contact David Jordan at djordan@rcc.mass.edu or **857-701-1707** for more information.

Seven Simple Steps to Become a Student at RCC

» Spring 2021 courses at RCC begin during the week of January 18, 2021. In an effort to limit campus foot traffic while offering students a variety of attendance options, spring 2021 courses will be offered through different delivery options:

- **Online = A fully online course without set meeting times.** Online courses are completed fully online, without in-person meetings. You can complete the work at a pace that best suits your schedule, but you must submit assignments and exams by set deadlines.
- **Virtual = A fully online course with scheduled meeting times.** Virtual courses are completed online but have set meeting times. You are required to log in and participate in course meetings via web-based communication (Microsoft Teams or Zoom) at the scheduled days/times.
- **Hybrid = A course with scheduled face-to-face meeting times and an online component.** Hybrid courses are completed on campus with designated meeting days and times with the remainder of the assignments completed online.
- **Traditional.** A limited number of courses will be offered through traditional, on-campus instruction. For more information on RCC's on-campus guidelines, visit rcc.mass.edu/campusaccess.

Step-by-step instructions are also available online at rcc.mass.edu/apply. You can also contact the Enrollment Center directly at 857-701-1200 or enrollment.management@rcc.mass.edu.

READY TO ENROLL IN SPRING CLASSES AND BECOME A PART OF THE RCC COMMUNITY?

FOLLOW THESE SIMPLE STEPS:

- 1** Complete the online application.
- 2** Submit your FAFSA. The form is available at fafsa.ed.gov. When completing the FAFSA online, be sure to list Roxbury Community College in the "schools information" section. Our code is 011930.
- 3** Complete the assessment test. You can now complete the test online! More information is available at rcc.mass.edu/testing.
- 4** Meet with an advisor to develop an academic plan and register for classes. A student resource directory with contact information for advisors is available at rcc.mass.edu/remoteteaching.
- 5** Attend new student orientation.
- 6** Pay your bill.
- 7** Attend class!

STEP IN TO A NEW CAREER IN 2021

NEW CLASSES START IN SPRING 2021

- Google IT Support Professional Certificate
- Clinical Medical Assistant
- Medical Billing & Coding
- Pharmacy Technician
- Phlebotomy Technician
- Veterinarian Assistant
- Project Management
- Grant Writing
- Business Communications
- Real Estate License Preparation
