The Chair called the meeting to order at 6:05 PM and determined that a quorum was present.

I. Guests
   a. President Roberson introduced 9 graduates of the College’s Successful Women in Clean Energy (SWICE) Program. The program is housed on the non-credit side of the College in conjunction with Goodwill Industries. The program was a 12 week, 5 days a week program. The graduates addressed the Board and expressed their thanks and excitement.

   Trustee Fernandez asked the participants how they learned of this opportunity. They responded through Boston Career Link.

   Trustee Leith thanked the graduates for allowing RCC to be part of their journey. She wanted to hear about their next steps in terms of their education and hoped RCC would be a part of that as well.

II. Public Comment
   a. Sadiki Kambon began by asking what the Board was going to do about the situation inside the walls at RCC, explaining that he believed the community is privy to that information. He stated that Dr. Gomes was dismissed for resisting corporate training programs for low level tech jobs. He worries there is too much emphasis on these programs today with a de-emphasis on the associates degree. He stated the College was on the brink of losing the RLTAC to outside forces. He wants it to be under the jurisdiction of the College, but is very uncomfortable with the current administration of the College. The infrastructure piece looks good, but we have a real crisis.
III. Reports and Approvals

Finance and Budget (VP Kevin Hepner and Glenn Lloyd, Trustee)

Vice President Hepner began his report by alerting board members that the 3rd quarter financial report was in their packets. There has been improvement in these quarter’s numbers. The College’s pension liability will decrease.

He then presented on the preliminary FY 18 budget for the College. He reminded trustees that the budget was a two part process due to the state not yet approving its budget. He noted that the state, through DCAMM, was covering depreciation expense; so, unlike other community colleges, we wanted our budget to be in the positive before depreciation expense, not after. The preliminary budget is very conservative with a decrease in tuition and fees, but that will depend on what fall enrollment numbers look like. On the expense side he noted an increase in staff budgets due to the increase in staff in the IT line, with a corresponding decrease in the IT contract services line.

Chairman Chertavian asked if the College was on track with its IT department hiring? Vice President Hepner responded in the affirmative.

Vice President Hepner continued, noting some savings in energy costs, and hoping for more in the next fiscal year; but, that is dependent on how quickly Eversource connects us to the grid.

Trustee Culliton offered his assistance. He also stated he’d like to see revised numbers on current and proposed credit hour enrollment.

President Roberson stated that they had been conservative due to the risk of over extending college resources, but noted that the College has a new director of admission with experience in the Boston school system, which will aid in increasing enrollments from Boston Public Schools.

By a motion of Trustee Culliton and seconded by Trustee Leith the FY 18 preliminary budget was approved unanimously.

Institutional Advancement (Vice President Lorita Williams and Josiane Martinez, Trustee)

Vice President Williams presented a report on gifts received by the College during the current 2017 fiscal year. The total was $176,000, including several individual donor gifts. Going forward this will be presented on a quarterly basis. She hopes that the College will be able to participate with the Boston Marathon again next year.

President Roberson stated that this report was an important piece of information related to the audit of the RCC Foundation. It helps to have a document from the College that can be reconciled with the Foundations files.
Trustee Curry asked about the source of the funds, where the money was pledged and what events the funds were raised at.

Vice President Williams responded that this data was available and could also be provided. She also noted the difference between grants and gifts in kind.

By a motion of Trustee Fernandez and seconded by Trustee Curry the gift report was accepted unanimously.

**Academic and Student Affairs (VP Cecile Regner and Dr. Jeffrey Greenberg, Trustee)**

Vice President Regner offered a correction to the tenure approval of Autumn Haag, correcting a typographical error in the spelling of her name.

By a motion of Trustee Coker and seconded by Trustee Leith the corrected tenure notification was approved.

**Human Resources (HR Director Patricia West and Amanda Fernandez, Trustee)**

Trustee Fernandez began by discussing the President’s performance evaluation. She thanked the board members for their contributions and thanked Director West in her efforts in assembling the report. The evaluation’s executive summary stated that the evaluation was based on one-on-one interviews with the Board, cabinet members, community stakeholders and aligned the evaluation against the Commonwealth’s vision data.

The summary stated which goals were met and which have fallen short along with rationale to explain mitigating circumstances such as campus renovations. Generally respondents felt good about the continued fiscal focus and management of the construction project. The President’s goals for Fiscal Year 2018 are also included. The board unanimously recommends to the Board of Higher Education that President Roberson be given a merit compensation of 100% of the maximum allowable percentage effective July 1st 2017.

Trustee Leith thanked Trustee Fernandez on the clarity of the process and being able to weigh in.

Trustee Curry asked what stuck out in terms of the key stakeholder’s feedback. Trustee Fernandez stated the feedback had not been individually desegregated but that was data that could most likely be provided.

Trustee Culliton offered that he thinks the President is doing an exceptional job, and that it is a challenging job.

Chairman Chertavian echoed the comments of the other trustees and offered his praise to President Roberson on the progress made and the expected progress to come. He stated the
feedback he receives from the community has been positive. He added that the Board would like to review the recruitment strategy at the September board meeting.

By a motion of Trustee Curry and seconded by Trustee Coker the performance evaluation was accepted.

President Roberson thanked the Board.

IV. Approval of Minutes April 25, 2017

By a motion of Trustee Culliton and seconded by Trustee Leith the minutes were approved.

V. President’s Report

Dr. Roberson began her report by following up on the presentation made at the last board meeting by the Black Economic Justice Institute (BEJI) and Priscilla Flint. Since then she has met with that group twice to see if it is possible for the College to support their request of adopting the Roxbury Master Planning Committee hiring standards. She presented such a statement to the Board for their approval with the hope that the College’s local legislators would work with DCAMM to urge these changes. She reiterated that DCAMM and not the College must make these changes, but we continue to work with DCAMM to improve the hiring standards.

Additionally, President Roberson has been preparing for the hearing next week regarding the Reggie Lewis legislation, which is currently before the Joint Committee on Higher Education. She stated that she had had several meetings to prepare for this hearing and drafting testimony. Additionally, individuals on campus are drafting their own testimony in support of the College’s position. The head of the Mass Community College Presidents’ Council will also speak against the legislation as the current legislation would undermine the authority of all college boards. She has met with the co-chairs of the committee hearing the bill as well as the Speaker of the House and members of the higher education committee and their staff. Her chief of staff, Peter Antonellis, has taken meetings with staff. Additionally the College has proactively met with the state’s athletic directors as well as the Mass State Track Coaches Association. Likewise, members of the Roxbury community continue to enjoy access to the facility. The goal remains using the RLTAC to help build partnerships within the community.

Trustee Curry suggested tracking and communicating the amount of space utilized by the community so it can be reported. He also offered that trustees could be deployed to community meetings to continue to talk up the good work being done at RCC.

Chairman Chertavian agreed and noted how well, in his opinion, the center is being run. The College must continue to push back on the assertion that the center is not being run well.

VI. Chairman’s Report
Chairman Chertavian noted this was Student Trustee Coker’s final meeting and he thanked him on behalf of the entire board for his service to the Board and the College. Trustee Coker thanked the Chairman and also offered his praise to Dr. Roberson and noted her professional demeanor while often having to sit through difficult meetings. He hoped all the parties involved could put aside tribal sentiments and work together for the betterment of Roxbury Community College.

VII. Executive Session

There was no need to enter executive session. The chairman wished the general public a good evening and thanked them for their attendance.
